Gary Nielsen

- **MNR Climate Change Project Coordinator**
- Honours B.SC in Forestry Degree - University of New Brunswick
- Over 25 years experience with MNR as a Management Forester, Stewardship Coordinator & Planning and Info Management Supervisor
- Executive of Charleston Lake Association
- Lead the development of a lake management plan

(Bracebridge Examiner, October 19th, 2005)

2014 Meeting

- Location Andrew Paterson & Professor Barb Elliot

- Date

- Inland Lakes Research Scientist
MOE Dorset

- Shoreline Expert

Climate is the aerial

Other nutrients (esp. nitrogen), light, etc., influence what species are present – the “tuning”

Phosphorus controls the “volume” of algae

Time To Act

1. The old rules no longer apply
2. Existing phosphorous levels may not be good enough
3. Act before the problems appear
4. Septic & Shorelines
5. You personally need to act

Thanks

- Gary Nielsen
- C.H.A. Exec
- Dave Dennis –
Canning Lake
